National Terrorism Advisory System Bulletin

On 11/15/16, The Department of Homeland Security issued a new National Terrorism Advisory System (NTAS) Bulletin. This new Bulletin has a duration of six months, and will expire on 05/15/17.

The bulletin's summary states:

- "Since the last NTAS Bulletin issued in June 2016, our basic assessment of the global threat environment has not changed. We remain concerned about homegrown violent extremists who could strike the homeland with little or no notice. Events since the last NTAS Bulletin reinforce this. Accordingly, increased public vigilance and awareness continue to be of utmost importance. This was, for example, a crucial component of the swift response to the September terrorist acts in New York City and New Jersey."
- Full Bulletin can be found at: https://www.dhs.gov/sites/default/files/ntas/alerts/16 1115 NTAS bulletin.pdf

WEATHER OF CONCERN

Weather of Concern

- A chilly air mass has settled over portions of Northern California and will bring several nights of cold weather through Friday. Tonight and Thursday night are forecast to be the coldest with a Freeze Watch in effect from tonight through Thursday morning for Trinity, interior Humboldt, and northeast Mendocino counties.
- Widespread gusty northwest to north winds will bring elevated fire danger to much of Southwest California through this evening. On Thursday and Friday, winds will shift to the northeast with more widespread drying, especially Los Angeles and Ventura counties where a Fire Weather Watch has been issued for potential critical fire weather conditions.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

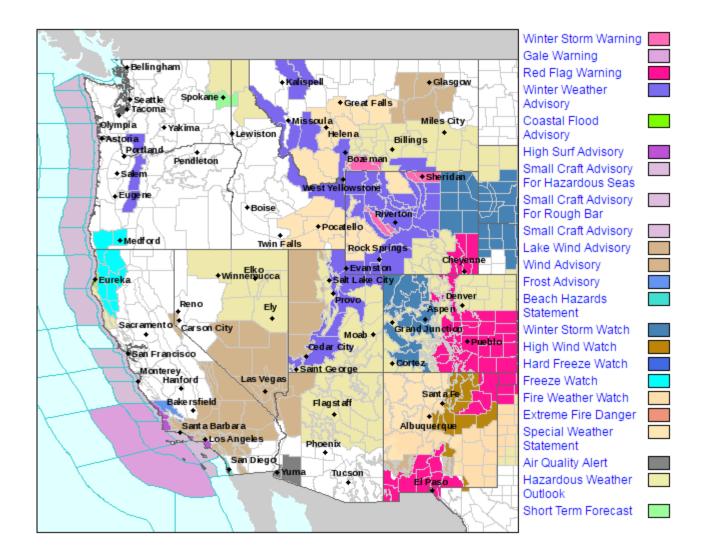

A low pressure trough will be moving across the region today. There will be lingering cloudiness in a lot of areas and some showers are also expected to develop, mainly over the mountains. Snow levels will be around 4000 feet in the north and about 6000 feet in the south. There will be a break between systems Thursday into Friday with partly cloudy skies prevailing, especially for the mountains. A stronger, wet weather system will arrive at the coast Friday afternoon and move inland overnight. Rain or snow will hit all areas of the region over the weekend, although the Far Eastside Predictive Services Area (PSA) may not see much in the way of precipitation totals, but overall cool, moist conditions will still prevail there. After a break in between systems Monday, more wet weather is expected next Tuesday and Wednesday. Snow levels will vary, but the lowest levels will be similar to today's. Daily max temperatures will mostly be just below seasonal averages for the next 7 days. Some gusty southerly winds will develop Friday afternoon ahead of the incoming weather system. Gusts may become as strong as 40-50 mph in the windiest locations, mainly along the coast and in the northern mountains and for the Shasta Valley.

SOUTHERN CALIFORNIA

A Pacific trough will bring southwest to northwest winds of 20 to 40 mph with gusts to 60 mph to the mountain ridges and desert passes through this evening. On the back side of this trough, there will be northwest to northeast winds of 20 to 40 mph with gusts to 60 mph across the South Coast of Santa Barbara and the Grapevine this evening through Thursday morning. There will also be north to northeast winds of 15 to 30 mph with gusts to 50 mph below the canyons and passes of Ventura and Los Angeles Counties Thursday morning. Elsewhere, there will be local gusty offshore winds across Southern California Thursday morning. Winds will decrease significantly Thursday afternoon and become light by Thursday night. The trough will also bring scattered showers mainly to the Sierra through this afternoon, with only very light amounts of precipitation expected. Temperatures will be near to 5 degrees below normal through Thursday with mid 40s to mid 50s across the mountains, mid 50s to mid 60s in the Central California Valleys, and mid 60s to mid 70s in the Southern California Valleys. Minimum humidity will be mainly above 30% away from the deserts today and then drop into the single digits and teens away from the San Joaquin Valley Thursday. A weak ridge of high pressure will cause temperatures to warm to around 5 degrees above normal and minimum humidity to stay mainly in the single digits and teens Friday and Saturday. A Pacific trough will approach the coast and move inland Sunday and Monday bringing cooling and higher humidity to the region. Showers will be possible Sunday night and Monday depending on how this trough evolves.

WEATHER MAP

CAL OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES Law Missions

• 2016-LAW-28292, 11/15/16, 1744 hours: Inyo County Sheriff requested a helicopter to assist with the extraction of an injured hiker from the 13,000 foot level of the John Muir Trail, near Mt. Whitney, GPS Location 36.5802°, -118.2883. The hiker was severely injured in a fall. A CHP Helicopter was requested and responded but was unable to complete the mission based on elevation and weather. The California National Guard (CNG) was contacted for a CH47 helicopter, but they were unavailable until the following day. Lemoore Naval Air Station (NAS) agreed to attempt the extraction based on the immediate need. Air Force Rescue Coordination Center (AFRCC) was contacted and approved the mission. Lemoore NAS responded and was able to reach the victim, who was already deceased. Lemoore NAS was unable to extract the victim due to the elevation and weather. CNG re-contacted and will continue to support a body recovery mission, scheduled for noon today. Mission Ongoing.

CAL OES MISSIONS

Ongoing Cal OES Missions

- 2016-Coastal-26848: Caltrans Hazmat Manager for DROC for the Clayton Fire in Lake County. On Scene 09/28/16 12/16/16. Mission Ongoing.
- 2016-Coastal-26842: CDFW Oil Spill Prevention Specialist for the Clayton Fire in Lake County. To be On Scene 10/03/16 12/16/16. Mission Ongoing.
- 2016-Coastal-26477: Cal Recycle debris removal assistance requested for the Clayton Fire in Lake County; on scene through Mid-December. Mission Ongoing.
